

Librarians

Research

Librarians engage in research, which is now required for consideration in promotion to Librarian IV. CUASA has negotiated an expansion of Librarian research days to nine (9) from five (5).

Hiring and Appointments

CUASA has worked to clarify and improve several of the collegial processes for hiring and appointments in the library. This will give CUASA Librarians clarity and transparency in their hiring committee participation.

Grievances and Disputes

There is already a grievance process that covers all CUASA members, while Librarians had been subject to an antiquated dispute resolution process for some aspects of their work. CUASA has worked to integrate Librarians into the universal grievance process across all areas of the collective agreement.

Department Heads

Library Department Heads are getting a raise. The stipendiary amount for Department Heads will increase by \$500 in the next collective agreement.

Everyone needs Librarians.
